Don,

Yesterday, Diana forwarded the edited asbestos meeting transcript. It was not a mark-up, so I compared her version to the original from Linda. The resulting file is attached.

I did a cursory review of the changes and made only one change (on page 775, "next" was changed to "lack." I think it should have been "neck," but I didn't listen to the audio).

As with PCE, please forward this to the contractor for their review and acceptance of the changes. Then, I think we can proceed with file inspection, conversion to pdf, and upload to the docket.

Thanks.

Steve
